MANY OFFERS OF GOLD.

The Balance in the Treasury is Now More Than \$4,000,000.

WASHINGTON, March 11.—The Treasury situation continues to improve from day to day, and from this time on the Treasury Department will be in a position to take only the more advantageous offers of gold. To-day offers of \$100,000 in gold were received from Pittsburgh, and \$100,000 from Peoria. The demand from Chicago for small metals continues to increase, and it is believed that in this has been offered gold for notes and some day took place in the transfer, the delivery was deferred for a few days and the small notes sent to New York.

The many offers of gold from out-of-the-way places caused Secretary Carlisle this morning to notify all State Treasurers that the present gold offerings can be received only at the Sub-Treasury offices in exchange for notes.

In other words, the Government will not pay gold for notes, but will exchange notes for individual gold.

The Sub-Treasurer of the Bank of the U. S. at New York, Boston, Philadelphia, Baltimore, Cincinnati, Chicago, St. Louis, New Orleans, and San Francisco.

At noon to-day Treasurer Nobes received a telegram from Assistant Treasurer Roberts at New York, saying that no offer of gold had been made to him, and that the probability was that none would be taken out next week.

The to-day statement issued to-day by the Treasury shows the free gold balance to be \$2,500,000. Acceptances of gold have been made, but which do not yet appear in the account, bringing this balance up to more than \$4,250,000.
